ENVIROMENTAL POLICY OF ZAKŁAD METALURGICZNY “WSK RZESZÓW” SP. Z O.O.

Zakład Metalurgiczny “WSK Rzeszów” Sp. z o.o. is a major world’s company offering products and services in the area of “designing and manufacturing of light alloys castings, grey, ductile and special cast iron castings, machining, production of casting and forging tools as well as gauges and tools for machining”.

We are a company with over 60 years’ tradition, generating roughly 90% of revenues on exports, delivering its products to the world’s leaders in aviation, automotive sector, power industry, including the manufacturers of wind and solar power plants, railway, engineering industry, manufacturers of tractors and agricultural machines.

We make technologically advanced castings of complicated shapes, at the highest level of difficulty. Our company possesses the ISO 14001, ISO 9001 and ISO/TS 16949 certificates.

Considering the opportunities and conditions of the constantly changing market, the Management of the company commits to carry out further consequent creative activities by the company in order to provide our recipients with modern products and services tailored to their expectations, with simultaneous active actions for the safety of staff and fulfilment of the duties related to compliance with legal and other requirements, reduction of the impact of the company operations on the environment and achievement of comprehensive environmental objectives.

Our environmental objectives are fulfilled by:

- continuous improvement of the Environmental Management System based on the ISO 14001 standard;
- prevention of environmental pollution by:
  - effective and frugal management of raw materials, including electric energy, gas and water;
  - limitation of pollutants emission to atmosphere;
  - environmentally save waste management ensuring its proper segregation and reuse or utilisation;
  - protection of soil, surface and underground water;
  - use of substances and materials of the least possible impact on the environment;
- consideration of the environmental requirements in the process of designing products, ordering goods and services and control of subcontracted processes;
- monitoring and analysis of any environmental impact;
- undertaking actions and assigning adequate means for continuous improvement of occupational health and safety and protection of the natural environment;
- building the ecological awareness among the staff and subcontractors.

The Environmental Policy has been communicated to the company staff and its availability to any interested parties has been ensured.

Our mission is full engagement of every staff member in the implementation of the assumed Environmental Policy.

The Management Board of ZM “WSK Rzeszów” Sp. z o.o.
